REVISED 11/2012

Welcome to Cocker Spaniel Resources, Inc. and its chapter A-Way with Cats Rescue from your four legged friends! We appreciate your interest in our volunteer program and share your desire to make the world a better place for animals. As a non-profit animal corporation, we depend on our volunteer staff, time and talents, to enable us to provide quality care for the animals in our care.

As our organization grows, so does the need for dedicated volunteers to provide a clean, safe environment for those which have been cast away by society. This corporation strives to promote humane education and respectful treatment of animals as part off their tender loving care which, you can provide.

It is our intent to provide you with as much information available about our volunteer opportunities so that you may carefully consider the commitment you are making. Certain volunteer positions require a minimum six-month commitment, due to training involved, with hours to be determined individually. There will be periodic training sessions offered, some mandatory, but most optional. The orientation is designed to keep you informed, safe, and to increase your skills in handling animals.

As you become familiar with the various programs, it is likely you will develop multiple interests. If ever you are ready to explore a new program, let us know, and we can sit down and introduce you to the different aspects of those opportunities.

It is our hope you will discover your volunteer efforts at Cocker Spaniel Resources, Inc. and its chapter A-Way with Cats Rescue to be enjoyable and rewarding. You can be certain your efforts are truly appreciated by other volunteers and the animals with which you work!

Best regards,

Janet K. DeCraene
